

Implant[®]

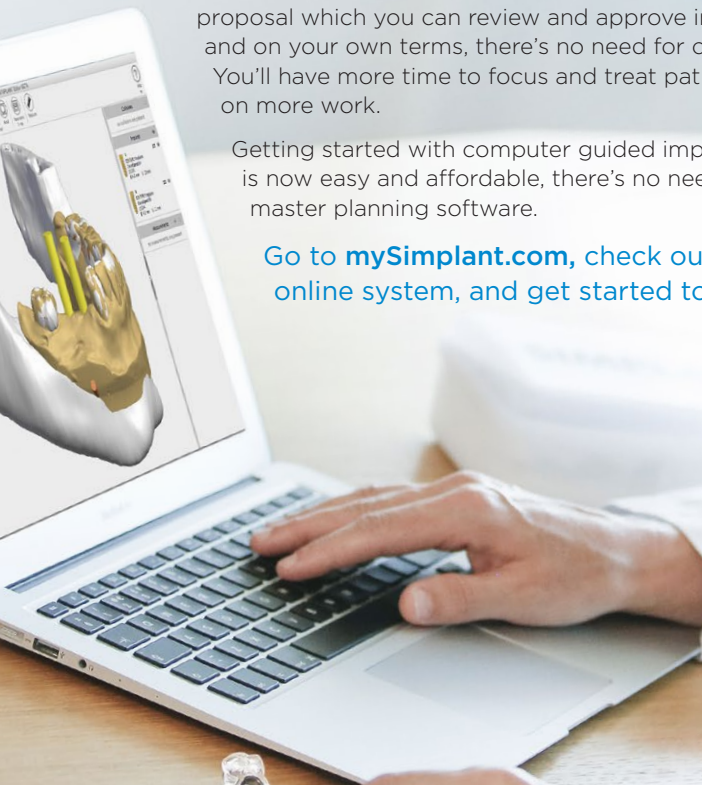

my practice is thriving myImplant[®] is why!

Whether you'd like a Simplant Guide to ease you into the world of implant treatment or you want a guide for your more complex cases, myImplant Planning Service is your easy access to the benefits of computer guided implant treatment.

Our Simplant technician will prepare an implant planning proposal which you can review and approve in your own time and on your own terms, there's no need for online meetings. You'll have more time to focus and treat patients, and take on more work.

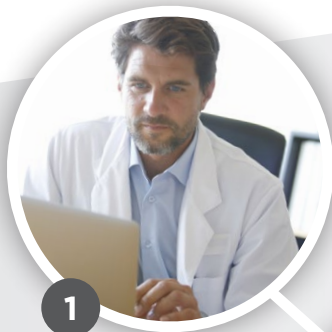

Getting started with computer guided implant treatment is now easy and affordable, there's no need to buy or master planning software.

Go to myImplant.com, check out the intuitive online system, and get started today!
