

# Automated reprocessing of surgical instruments

**The Washtray allows for machine cleaning, disinfection and subsequent steam sterilization of instruments:**

- One tray for all steps of reprocessing: enhances time- and cost-efficiency
- Instruments are fixed and organized from chairside through all steps of reprocessing and back to chairside
- The removable overlay has a layout very similar to the existing plastic surgical kits which offers easy orientation and intuitive handling during surgery
- Sterilization container for simple, quick and safe handling can be ordered separately

## Order information:

### 3226 7800

XiVE® Washtray  
(Including metal tray and overlay)

### 3226 7802

XiVE® Washtray Sterilization Container

## Cleaning and sterilization

The overlay must be separated from the washtray before cleaning and re-assembled prior sterilization.

Please see "DENTSPLY Implants Instruction for Sterilization and Instrument Care"!
